## Sustainable Fund Raising

Your support doesn't have to end here. A portion of every future order is donated to the group/organization you are supporting. This is to ensure continued growth for a good cause.

## What we are all about

Catfish Coffee Roasters are a locally owned and operated small batch coffee roasting company that is socially and environmentally responsible from the beans up.

All coffees are 100% Arabica as well as Organic and Fair Trade. Some come with extra bonuses such as Kosher, Rain Forest Alliance and Bird Friendly.

Roasting emissions have been reduced to less than 10% with the addition of a catalytic afterburner.

## The Changing Seasons

Some of the growing countries are subject to seasonal harvests. Catfish Coffee Roasters supports the philosophy of only offering what is seasonally available.

## The Bottom Line

Clean, fresh, locally roasted, organic and fair-trade coffee beans! What more could you ask for?
